

NEO  
SPORTS  
CAFÉ

CB  
300R

The Neo Sports Café puts Japanese craftsmanship to work and brings together the two main components one looks for in a bike – style and performance. Adding a modern twist to the retro café-racer style, the all new CB 300R is built to make the rider feel invincible.

Its bold new look contrasts brushed alloy radiator shrouds with a blacked-out engine and an underslung, upswept exhaust. The all-new steel tubular frame and stout-looking, 41mm upside down front forks, provide agile handling as well as character. And with a round headlight, taillight and indicators that are all LED, this bike is made to be seen and stand out everywhere.

### LED Lights

All lights, including indicators, on the CB 300R are LED. At first sight, there's the thin round headlight with its metal-tone rim. It's a signature feature with a distinctive, ringed running light as well as an attention grabbing, two-bar light feature.

### New Full LCD Multifunction Meter

The minimalistic instrument panel is integrated into the top fork yoke and ignition switch, it's positioned perfectly for the rider to take a quick glance down at the information – night or day.

### Hub Less Floating Disk Brakes

Front brake is a radial-mounted, 4-piston caliper, 296 mm wave-style disc brake. The rear is a 2-piston caliper, 220 mm wave disc and both are regulated during use by 2-channel ABS. This high-specification system works through an IMU (Inertial Measurement Unit) providing finely-balanced, front-to-rear operation and incredible feel, in all riding conditions.

### Newly Designed Muffler

Underslung, dual-chamber exhaust, cradles the dark shape of the single-cylinder engine and sweeps up at the rear. Finished by contrasting black with chrome, it adds to the aggressive, 'tail-up', ready-to-go intentions of the bike.

### Light-weight Inverted Front Forks

The tough-looking 41 mm USD forks combined with a 7-stage preload, rear shock-mounted on a pressed-steel, pro-link swing arm, are the basis of the CB 300R's agile handling.

## TECHNICAL SPECIFICATIONS\*

Engine	
Type	Liquid Cooled, 4 Stroke, SI Engine
Displacement	286.01 cc
Max Power	22.4 kW@ 8000rpm
Max Torque	27.4 Nm@ 6500rpm
Fuel System	Fuel Injection
Bore X Stroke	76.0 mm X 63.047 mm
Compression Ratio	10.7:1
Body Dimensions	
Dimension (LxWxH)	2028 mm x 888 mm x 1053 mm
Wheelbase	1344 mm
Ground Clearance	151 mm
Kerb Weight	147 kg
Seat Height	800 mm
Fuel Tank Capacity	10 Ltrs
Transmission	
Clutch Type	Multiplate Wet Clutch
No of Gears	6
Tyres	
Tyre Size (Front)	110/70 R17 M/C (54H)
Tyre Size (Rear)	150/60 R17 M/C (66H)
Brakes	
ABS	2 Channel ABS with (IMU)
Brake Type & Size (Front)	Disc - 296 mm
Brake Type & Size (Rear)	Disc - 220 mm
Frame & Suspension	
Frame Type	Diamond Type
Front Suspension (Type)	USD Telescopic
Rear Suspension (Type)	Mono Shock
Electricals	
Battery Rating (Ah)	12V/7.0Ah
Head lamp	LED

Candy Chromosphere Red

Matte Axis Grey Metallic
