FEATURE PACKED DIGITAL DASHBOARD

The Rodeo RZ offers you a digital dashboard like no other. It's complete, informative and it's dramatic to say the least.

The Digital Dashboard includes a speedometer, tachometer, even an odometer to tell you how fast and far your Rodeo RZ is taking you. The trip meter allows you to keep track of distances between trips. And the acceleration timer allows you to set new personal records, just in case you get carried away by the throttle. It also includes an over speed alarm to tell you when you are going a bit too fast. The fuel gauge alerts you in case you're running low on fuel. It even has a watch that tells you when it's time to head back home. As the sun sets, this Digital Dashboard comes to life, lighting up, with 7 backlight colours to choose from.

CHARGE ON THE GO
